Sama Business Development

March 2, 2026

To the Admissions Committee,

It is with great pleasure that we write this letter to highly recommend Abdul meneam Al maree for admission to your college. Abdul meneam worked as an intern at Sama Business Development from the summers of 2023 to 2025. Throughout his tenure with us, he consistently demonstrated exemplary behavior and an outstanding professional attitude.

Abdul meneam proved to be an invaluable asset to our team through his direct contributions to several high-impact technical projects. He independently developed a freelance website called "Ghina Invest" for a new sub-company we launched, which focuses on investment opportunities in Africa. Furthermore, he played a key role in the development and overall shaping of our primary investing platform, Sama Invest.

Beyond structural development, he took on the critical responsibility of a bug tester for Sama Invest, where he successfully identified and caught multiple security vulnerabilities and cosmetic risks before they could impact end-users. He also demonstrated significant creative versatility by assisting with the platform's marketing efforts, conceptualizing and producing promotional videos.

His hands-on experience with full-stack web development, platform security testing, and digital media makes him highly prepared to excel in a rigorous academic curriculum focused on computer science, engineering, or artificial intelligence.

Abdul meneam is a dedicated, multi-talented individual with a strong work ethic. We recommend him to your institution without reservation.

Sincerely,

CEO

RIAD ALMERAY
