Subject: **Recommendation Letter**

To Whom It May Concern,

I am pleased to provide this letter of recommendation for Abdulmunim, a distinguished student at Engineering Village, who has been part of our programs since 2015.

Throughout his journey with us, Abdulmunim has demonstrated consistent commitment, technical curiosity, and a strong willingness to learn. During his participation in the **Innovators Program** at Engineering Village, he was selected as one of the nominated candidates, reflecting both his potential and the quality of his work.

Over the years, Abdulmunim has trained in the fundamentals of electronics and programming, building a solid technical foundation. He has successfully worked on several engineering projects that required problem-solving, logical thinking, and practical application of concepts. His ability to translate theoretical knowledge into functional prototypes has been particularly notable.

In addition to his technical capabilities, Abdulmunim has shown good collaboration skills and a respectful, responsible attitude when working within teams. He engages constructively with peers, accepts feedback positively, and demonstrates steady improvement in both technical and communication skills.

Based on his long-term dedication, practical experience, and demonstrated growth since joining the program in 2015, I am confident that he is well-prepared to pursue higher education in an engineering or technology-related field. I believe he will contribute positively to any academic community he joins.

Please feel free to contact me if further information is required.

Yours Sincerely,

**Basmala Al Shidi**
